SOBER

PROCEEDINGS

Sustainability, Organization, Business and Economic Research (SOBER) is a proceedings book series that aims to publish the full papers presented at international conferences. Published items are approved by the conference committee, and original research content is **peer-reviewed**.

SOBER Proceedings do not accept direct submissions from the authors. The conference organizers need to contact our editorial office. This book series has been published by **Malton London Academy**, which has an **official registered publisher** certificate (Certificate No: 71982).

SOBER Proceedings brings the most current research presented at conferences and workshops to a global readership. The series features volumes (in electronic formats) of selected contributions from conferences in all areas of sustainability, organization, business, and economics. In addition to an overall evaluation by the publisher of the topical interest, scientific quality, and timeliness of each volume, each contribution is refereed to standards comparable to those of leading journals, resulting in authoritative contributions to the respective fields.

The editorial development of volumes may be managed using the paper management system, a proven online conference proceedings submission, management and review system. This system is designed to ensure an efficient timeline for your publication.
